

## Fire Types, Extinguishing Agents, and Methods

Fire Type	Extinguishing	
	Agent	Method
<b>Ordinary Solid Materials</b>  	Water	Removes heat
	Foam	Removes air and heat
	Dry chemical	Breaks chain reaction
<b>Flammable Liquids</b>  	Foam CO <sub>2</sub>	Removes air
	Dry chemical	Breaks chain reaction
<b>Electrical Equipment</b>  	CO <sub>2</sub>	Removes air
	Dry chemical	Breaks chain reaction
<b>Combustible Metals</b>  	Special agents	Usually remove air
