

What do you want protected when you are away from your home?

- Will your burglar alarm protect your home when there is an emergency and first responders are elsewhere?
- Have you provided for a favorite pet in case there is an emergency when you are not there?
- Have you children at home while you work? Will they be able to cope with an emergency if you are not around for awhile?
- Have you someone at home with limited mobility? Are you all prepared for them to be on their own for a day or two?

Neighborhood Watch Plus can help you and your neighbors prepare for eventualities like these. Your local Citizen Corps Council has organized a mutual assistance plan for you and your neighbors to implement. The program combines the best of Neighborhood Watch and the best of CERT, Community Emergency Response Team training.

For a look at the program, go to www.cdnccl.org, our affiliate's website, click on **What's New**, next click on **Archives and PowerPoint Presentations**, and lastly click on **Neighborhood Watch Plus**.

Once you have interested a few of your immediate neighbors in the idea, contact us to learn about the next step. Email your name, address and phone number to us at nomae@nwlink.com or complete and mail this form to: Fall City Citizen Corps, P.O. Box 729, Fall City, WA 98024. We'll be in touch.

Yes, my neighbors and I would like to organize our Neighborhood Watch Plus.
